

Employee & Student Vaccination Clinic – Offering COVID Vaccines @ 3rd Floor of Blue Devil Tower

*Only offering **Pfizer appointments** at this location and **J&J by request***

Location: Blue Devil Tower in Wallace Wade Stadium – **3rd Floor**

Address: 110 Frank Bassett Dr, Durham, NC 27708

Booster Vaccines will be made available [by appointment](#) for Duke employees and students who fall under the updated [CDC guidelines](#).

- Faculty/Staff/Students who have received their last dose of the **Pfizer or Moderna vaccines over 5 months ago**. Please note, Duke will no longer be offering the Moderna Vaccine beginning on January 1st, 2022.
- Faculty/Staff/Students who have received their initial dose of the **Johnson and Johnson vaccine at least 2 months ago and are 18 years of age or older.**
- The FDA and CDC also authorized “**Mix and Match**” vaccines, meaning faculty/staff may receive any of the three available vaccines for their booster regardless of their initial vaccination series. Duke medical experts suggest that those who initially received J&J preferentially get a booster shot of either Pfizer or Moderna, which has proven highly effective in preventing infection and severe illness. However, a J&J booster is still an option for these individuals. **Appointments will only be made available for the Pfizer vaccine at the Blue Devil Tower clinic. Please follow the link below to make an appointment:**
