

DUH Employee Vaccination Clinic at the Duke Medicine Pavilion – Offering COVID Shots

Only offering Pfizer appointments at this location and J&J by request

Location: Duke Medicine Pavilion 2nd floor, **Conference Room 2w96**

Duke Medicine Pavilion address: 10 Duke Medicine Cir, Durham, NC 27710

Booster vaccines will be made available [by appointment](#) for Duke faculty/staff/students who fall under the updated [CDC guidelines](#):

- Faculty/Staff/Students who have received their last dose of the **Pfizer or Moderna vaccines over 5 months ago**. Please note, Duke will no longer be offering the Moderna Vaccine beginning on January 1st, 2022.
- Faculty/Staff/Students who have received their initial dose of the **Johnson and Johnson vaccine at least 2 months ago and are 18 years of age or older**.
- The FDA and CDC also authorized “**Mix and Match**” vaccines, meaning faculty/staff may receive any of the three available vaccines for their booster regardless of their initial vaccination series. Duke medical experts suggest that those who initially received J&J preferentially get a booster shot of either Pfizer or Moderna, which has proven highly effective in preventing infection and severe illness. However, a J&J booster is still an option for these individuals. **Appointments will only be made available for the Pfizer vaccine at the DMP Clinic.**
